

TP 02

1. Use the previous database created in TP01.
2. Change the field properties as follows:
 - Add an input mask (password) for the Phone field.
 - Add a test for the values of the Age field such as: $23 < \text{Age} < 59$ then add the following error message: "The age of the employer must be between 23 and 59".
 - Change the format of date as : dd/mm/yyyy.
 - Set in gmail default value:example@gmail.com
 - Set an **Input Mask** for Phone as: (+213)0-0000-0000.

3. Enter the following records in table workers:

Number_registration	first_name	Family_name	Date_employment	Phone	Gmail	salary	Sex	adres	Married	Age
1	Ahmed	mammeri	20/01/2015	(+213)6-2030-2500	Ahmed7@gmail.com	36000.00	man	Biskra	yes	25
2	Ali	merizig	19/02/2014	(+213)7-1245-8956	Ali081993@gmail.com	59000.00	man	Tolga	no	30
3	Imen	merizig	16/06/1992	(+213)5-8596-1213	Imen2000@gmail.com	40000.00	woman	Annaiba	no	31
4	Mohcin	mansouri	16/09/2021	(+213)6-8562-1245	Mohmamm90@gmail.com	20000.00	man	Jijel	yes	29
5	Amina	mansouri	08/06/1997	(+213)7-2541-2396	aminabiskra@gmail.com	60000.00	woman	Biskra	no	55

4. Export data from previous table to Excel, leave the proposed name.
