

Student's Full name:

Group:

Course Lecturer Level Groups

Research Methodology in Education / Prof. **Hoadji A. C.** | Master One | 1 and 2

Instructions:

- Please write in clear and distinguished letters,
- Part One, Activity I: Circle the best answer.
- Part One, Activity II: Put **T** or **F** in the given box.
- Part Two, Activity I: write down the answer in the given box.
- Part Three, Activity I: composition up to 15 lines.

Second-Semester In-Take Home Test

February 2024.

Part One: Just remind it!

Activity I: Choose the best answer (2pts).

- is to arrange according to the American Psychological Association (APA) the sources you cite in in-text.
a. Referencing b. Bibliography c. Reviewing the related literature
- requires to spend considerable time among the people whose lives are being studied.
a. Phenomenology b. Case Study c. Ethnography
- Research ----- are guidelines a researcher follows to minimise the risk of harm.
a. regularities b. standard norms c. ethical issues
- A ----- Study describes a phenomenon in and across time.
a. Narrative b. Grounded Theory c. Longitudinal

Activity II: Decide whether these statements are **True** or **False** (2pts).

- In qualitative research, a researcher seeks to establish the meaning of a phenomenon from particular view.
- A quantitative research is concerned with a small sample size.
- In an unstructured questionnaire, the questions tend to be long and the answers tend to be short.
- The interpretivistic assumptions are reductionist with the intention to reduce ideas into a small, discrete set of ideas.

Activity III: Match concepts with definitions (2pts).

- | | |
|----------------------|--|
| 1. Research Strategy | a. It is to reflect what will be the product of research. |
| 2. Research Problem | b. It is the knotty situation either theoretical or practical. |
| 3. Research Aims | c. It is to describe the outcomes of the work. |
| 4. Research Proposal | d. It is a plan of action designed to achieve a specific goal. |

Part Two: In-between!

Activity I: Fill in the gaps (4pts).

Stating a1..... claim means that researchers start project with certain assumptions about how they will learn and what they will learn during their inquiry. These claims might be called2.....or broadly conceived research methodologies. Researchers make claims about what is3..... , how we know it, what values go into it, how we write about it, and the processes studying this4
